360XL – Advanced Mass Notification Systems for Enterprise & Public Safety

SUPERIOR PERFORMANCE

The 360XL delivers unmatched, highly intelligible voice and warning siren broadcasts with uniform 360° coverage.

The Genasys 360XL received a Speech Transmission Index score of 0.95 on a 0-1.0 scale, considered excellent by the International Electrotechnical Commission.

The 360XL has been tested to withstand wind speeds up to 200 mph.

The 360XL is designed to be mounted atop a standalone pole or on a non-penetrating roof mount, maximizing the amount of potential installation locations.

Genasys 360XL systems feature industry-leading voice intelligibility and outdoor communications area coverage.

Solar power and satellite connectivity options enable Genasys speakers to continue to operate when power and cellular infrastructure goes down during outages or disasters.
